

Name: _____

Start here:

Melville-Knox Summer Challenge

How it works:

1. Practice Reading or Maths over the summer holidays. Set a target time and see if you reach it.
2. Track your time using this sheet. For each 15 minutes of reading or maths you complete, colour in one of the squares. You'll colour in 4 per hour.
3. If your parents are happy, ask for sponsorship per 15 minutes of reading or maths. All money raised will go towards books for the classroom.
4. Please return your sheet at the start of the new term.

Total Target time: _____

Total Actual time: _____

Sponsorship money raised (if any):
